F. CLINKSCALES, EDITORS AND C. LANGSTON, PROPRIETORS TERMS: ONE YEAR...

SIX MONTHS .. WEDNESDAY, AUG. 28, 1895. Now is a good time to invest in real estate in Anderson. It is cheaper than it

will ever be again, in our humble judg-

It is said that the Constitutional Convention will be composed of 82 dyed inthe-wool Tillmanites, 38 "Forty Move ment" sympathizers and 40 Conserva-

John D. Rockefeller's wealth increase it is said, at the rate of \$15,000,000 a year. The Standard oil magnate will soon have the \$500,000,000 which it is his ambition

Boll worms in large numbers have made their appearance in the Mississippi bla, the greatest cotton producing coun-try on earth, and the planters apprehend serious damage.

Postal receipts in twenty of the largest show an increase of over seven per cent. over the corresponding period last year.

The consolidated street car monopoly of Atlanta has decided to charge double fare during the Exposition. This action is not wise, and is calculated to give Atlanta and her Exposition a black eye.

According to the statistics furnished by eur consular service, the farmers of this country are better clothed, better housed, setter fed, give their children a better education and have more money in bank than the rural population of any country in the world.

Gov. Evans says the Constitutional Convention will be in session only three weeks. He is in the ring and knows what he is talking about. The Constitution has already been framed, and all that is necessary will be to submit it to the caucus crowd, who will swallow it whole.

At a recent meeting of the Christian Alliance at Old Orchard, Maine, the sum of \$27,000 was raised for foreign missions. It is said to be the largest collection ever taken up in the history of the world for any similar purpose. It was estimated that there were ten thousand people pres-

The Supervisor of Registration and two managers of election, charged with fraud in the conduct of the recent election for tates to the Constitutional Convention in Darlington, had a preliminary ing last Monday and their cases were sent up to the Court of General Sessions Fraud is charged in a number of other Counties in the State.

Special reports to the Manufacturers Record show that the interests of the South continue to exhibit a fair degree of activity notwithstanding the fact that the fall seeson has not yet opened. There has been no special increase in the num ber of new enterprises, but the last reported for the week shows that throughextension of industrial matters

It seems that the efforts of the newspa pers have not been in vain. For years they have been urging the farmers to raise their own "hog and hominy," and this year it appears that the farmers have taken their advice. They will find it more profitable to have their graneries and smokehouses at home than in the West. The drain upon the South in past years to pay for Western fool products was a handleap to its prosperity.

Every man who resides in or near Anderson should feel an interest in its welfare, and there is no better way to show that interest than to invest a few dollars in its enterprises. The shares in the new cotton mill are only fifty dollars each, and we have very few citizens who cannot take at least one or two shares. If the committee does not see you, send your name and the number of shares you desire to the INTELLIGENCER and we will hand it to the committee.

That gifted Sadducee, Bob Ingersoll, has apparently given up his lectures on the "Mistakes of Moses" and kindred topics. It is a singular fact that all of gersoll's magnificent oratorical powers could not make his infidel lectures a financial success. He had to turn to new topics and abandon his assaults on Christlanity. Perhaps, after all, we are a Christian people; or it may be possible that Mr. Ingersoll, as he treads the shady pathway of life, begins to think differently of things above-and below.

Mr. Hector D. Lane, President of the American Cotton Growers Protective Association and Commissioner of Agriculture for Alabama, was in Columbia last week. In a conversation with a reporter for the State he said that the next cotton crop will not exceed 7,000,000 bales. He advises the farmers to sell their crop gradually, and not to be in any rush to get it to market, for he believes that if it is marketed gradually the price will be maintained. He thinks the farmers ought to get at least S cents for their cotton next fall.

Never before in its history has the mortality of the justices of the United States Supreme Court been so great as in the past ten years. Of the nine men who composed that august tribunal in 1885 only three, Feld, Harlan and Gray, remain. A chief justice and five associate justices have been appointed since 1885, and the recent death of Justice Jackson left another vacancy. Most of the men who have been appointed to the Supreme bench have been well advanced in years, and it is natural that death should visit that Court often, but the decease of seven of its members in ten years is something

unprecedented. The people in the Southeastern portion of Abbeville County are very much excited on account of the discovery of some rich gold finds. Some forty tons of mining machinery have been received from Pennsylvania and the mining is to be carried on extensively. The richest finds have been in Walker's branch, at the foot of Little mountain. This is in the immediate section of the Dorn mine, which has not been worked since the war, but before the war more than a million dollars of gold had been taken from the Dorn mine. Since then the mine has been forsaken, and only occasionally have nuggets been taken from it.

Carolina are becoming a farce and they will continue so, so long as we are under the control of cliques and rings. People are so disgusted with the manner in control of cliques are brought out and the other on a pedal; were she of a size that threatened to which our candidates are brought out and nominated that it is a matter of great indifference whether or not they are elected. Perhaps the day is not far distant when a man's elevation to office will depend upon his capacity and ability, depend upon his capacity and ability, and when that day comes then our people will once more take interest in our elections and see to it that our very best while ironing they will save many callous men are elected." men are elected."

For a long time it seemed to be taken for granted that Speaker Ira B. Jones would be made the president of the Conposition, and the indications are that ither of them would accept the position elected or wanted. There are certain neidents that have recently occurred that would indicate that Governor Evans is likely to secure the place, if he wishes t, at the time of the election. It is said, nowever, that Senator Irby is opposed to Gov. Evans, and will fight him to the bitter end.

Must Make Better Bales.

The Liverpool Cotton Association autocrat of the cotton world, has set its foot down on careless American methods of baling. This letter, received yesterday by Superintendent E. R. Powers, of the Cotton Exchange, caused a sensation in

Dear Sir: Ibeg to inform you, that with a view of securing an improvement in the methods of packing and handling American cotton and of supporting the efforts of those in the United States who are endeavoring to bring about this much-needed reform, this association has passed a resolution that after the expira-tion of the coming season of 1895 96 all bales not packed in accordance with the regulations of the Maritime Convention held in New Orleans last February, and the regulations of the Galveston Cotton Exchange, endorsed by the conference, especially so far as the weight, closeness of weaving, calendering of bagging and weight and size of bands are concerned, shall be subject to a penalty of £5 a bale, or such amount as may, in the opinion of the directors, prove sufficient on delivery

at Liverpool.

In order to give reasonable time to manufacturers and holders of bagging and ties to dispose of the old style of canvas and ties and prepare for the new, the penalty will not come into operation until the cotton season of 1896 97, and this association would be glad if you would make it as widely known as possible among the manufacturers and users of bagging and ties for cotton bales and the cotton trade generally on your side, that the penalty mentioned will be strictly enforced at the time named, and thus, ample notice being given, no hardship will be inflicted on any interest concerned.

Peter Brown, Secretary.

To the Secretary New York Cotton Exat Liverpool

To the Secretary New York Cotton Ex-

The resolutions adopted by the Mari-time Convention held in New Orleans last February are as follows: Resolved, That a standard bale of coton shall be 28 inches boxed width and 58 nches boxed length, and that all the cotton exchanges and transportation lines in the United States and Europe are re-quested to recommend the adoption of such a uniform box throughout the entire area of the cotton growing States, and take such steps as, in their judgment, will carry it into effect.

Resolved. That all compressed bales of cotton after September 1, 1895, shall have a minimum ship-side density of 25 pounds to the cubic foot, and it is recommended that each bale shall have not less than ight bands to the bale.

The Galveston Cotton Exchange passed Whereas, the insufficient covering of American cotton by material of inferior quality is notorious, and the ragged condition of the bales when landed at ports of discharge and at mill points has become a source of constant loss and inconvenience to shippers and consignees:

Resolved, That from and after September 1, 1895, all bales of new crop not fully covered with bagging of a redium weight of 21-4 pounds a yard shall be declared unmerchantable unless recovered at the

xpense of the seller.

Resolved, That this rule be brought to the attention of all bagging manufactur-ers of the country, with the request and recommendation that for the ensuing above standard weight of fibre only, w wen sufficiently close and calendered to such a degree as to permit of the clear and distinct marking of the bales. Resolved, That the attention of the manufacturers be directed to the impor-

tance of making steel ties and buckles out of the best material and not lighter an 45 pounds a bundle, 30 ties of 11 to 11 1-2 feet in length.

J. Raymond Smith, secretary of the National Board of Marine Underwriters,

"It is a reform that has long been sought by the underwriters and the cotton trade generally, and is an excellent move. Great loss has fallen on the underwriters by the inadequate manner in which American cotton has been baled. The prolucer will have to bear the expense of he new methods, but he will be the rainer in the long run."

The effect on manufacturers of ties and

bagging will be enormous. In many instances they will have to put up new plants. Not a voice, however, was raised on 'Change against the innovation. All agree it is a necessity.—New York World,

Proposition That Each Race Pay for its Public Schools.

COLUMBIA, August 24.—One of the nost interesting matters that will come up before the Constitutional Convention will be how to provide for the support of the public schools. For a long time there has been a sentiment against the retention of the two-mill school tax in the been made to have it eliminated from the present Constitution. Some want the two-mill tax taken out of the Constitution without leaving any provision for the public schools, except such as the Legislature will in its discretion provide. Others think that this is dangerous, and

Others think that this is dangerous, and that provision will have to be made making it obligatory on the Legislature to provide for the public schools and in that way avoid pressure on the Legislature should hard times be the cry.

One of the much-talked of schemes is to provide that a school tax should be paid and that the taxpayer should indicate to what particular school district or school the money paid should be applied. This would divide the money of the white taxpayers from that of the colored taxpayers, unless some of the white taxtaxpayers, unless some of the white tax-payers should see fit to otherwise designate the use of their taxes. In several counties this plan of dividing the school fund according to the wish of the taxfund according to the wish of the tax-payer has been discussed and it will be of interest to note how the money would go on this plan, presuming that the whites would direct that the money they pay in should go to their schools. Some time ago there was a lively debate in Washington as to the distribu-tion of the Morrill fund and the Superin-tendent of Education at that time communicated with all of the County treasur-ers, and through them secured the facts and figures that were given. The figures quoted were necessarily approximate, but the treasurers, who are generally familiar with their taxpayers, have about gotten at the correct status. Out of the poll taxes the colored people pay 51 3-4 per cent. and the whites 48 1-4 per cent.

year was \$503,584.02, of which \$117,078.14 was credited to the poll tax fund. Tak-

ing the percentages given there would be for the credit of the colored people:

From the general tax....\$26,132 43

From the poll tax......\$60,587 93

This would give the colored pot \$86,-715,26 out of the \$503,584.02 that was paid It might be further stated that there are according to the annual report of the Superintendent of Education 120,590 colored children enrolled and 106,176 whites

in the public schools .- News and Courier.

Woman's God-Given Right. The St. Mathews Herald, in speaking of the recent election truly remarks:
"It does seem as if elections in South Carolina are becoming a farce and they were she of a size that threatened to

Low to Market a Cotton Crop.

COLUMBIA, August 23.—Commissioner columbia. August 23.—Commissioner Hector D. Lane, of Alabama, was in the city to-day. He is making a tour of the South as president of the American Cotton Growers' Protective Association. It south as president of the American Cotton Growers' Protective Association. It will be remembered that this organization was formed last January in Jackson, Mississippi, and Mr. Lane to-day, in talking about the work of the Association. It will be held in this city on the usual dates in Novembosition, and the indications are that tion, said that there was a very good organization in Texas, and that he made thirty-two speeches in Texas advising a reduction of cotton acreage and distribution of sales. He said that the acreage in will do her part towards furnishing them

ern cotten grower, her Majesty's subject, H. M. Neill, of New Orleans, who is the hireling of a coterie of speculative gamblers and of the English dealers. Neill has recently predicted a crop of between eight million and nine million bales. This is done to induce farmers into a repetition of the folly of last season, to fall pell mell over themselves to get rid of their product irrespective of intelligent of their product irrespective of intelligent action or prices. A repetition of this course will be simply accomplishing the purpose of their enemies and is suicidal to their own interests. Such action upon their part will cause a congestion of the product in the early months, creating competition between themselves and allowing the dealers to dictate prices, whereas by intelligent action on their part, by a judicious distribution of the marketing of the crop over the selling marketing of the crop over the selling season, they will create a competition among buyers, the farmers will dictate the price and we will thus receive some-

thing like the commercial value of our

"It is a well remembered fact that previous to the civil war on account of the lack of transportation facilities the marketing of the crop extended over eight or keting of the crop extended over eight or nine months, now we market about three times the amount we then did within the limited period of ninety days. I would advise farmers to withhold their cotton as far as they can do so without violating their contracts, or to make an equitable their contracts, or to make an equitable distribution of it over the selling season.

A committee consisting of D. D. Scott, Jesse Brooks and H. M. Gains were appropriate to draft resolutions expressing distribution of it over the selling season.

If through a propitious gathering season we should be able to gather and deliver our crops in the market in the early months, and the receipts in any wise justify reports of an average yield we can look for them to be greatly exaggerated, and we will thus assist Mr. Neill and his English confreres in again depressing values to starvation figures as they did last year, the farmers not receiving upon an average five cents a pound for their cotton, which means less than ten cents a day for their labor. And unless the farmers of this country are desirous of emulating the character of the inhabi-tants of the West Indies in wearing a breech clout for clothing and living upon rice and bread fruit, they will have to un-dertake more intelligent action in the marketing of their crops. I feel no hesitation in stating to the farmers of the Atto believe that Texas cannot possibly market this year more than two and a quarter millions of bales, with the indications at this time pointing to not more than two millions. I hope the farmers will consider deeply this important mat-ter that is to the material interest of the ntire South and be guided intelligently in their actions in regard to the market-

ing of their crops."-News and Courier. Tobacco is on Top.

DAFLINGTON, S. C., Aug. 22 .- The tobacco "break" advertised to take place in Darlington came off today and exceedin Darlington came off today and exceeded the expectations of the most sanguine. Despite the rain which came down in torrents yesterday, late in the afternoon long lines of wagons were seen winding their way to the two large new warehouses. On the floor of the warehouses everybody was busy putting the different grades of tobacco in piles in long rows extending the whole length of the floor. This morning other farmers came in from Sumter, Clarendon, Williamsburg and Florence, till at noon when the sales be-Florence, till at noon when the sales began, there was no room on either floor for another pile. There were on the floor of the Darlington warehouse about 900 piles, and on the floor of the Planters' warehouse about 800 piles, aggregating on the two floors about 40,000 pounds. The tobacco sold today were mostly trimmings and is considered by experts

trimmings and is considered by experts remarkably good. The tobacco sold up to this time brought \$6, \$10, \$15, \$25, \$50 and \$60 per hundred weight, and one pile, belonging to Mr. W. E. Dargan, was knocked down for \$91 per hundred weight. There is no way of finding out at this time the average price, but it will exceed the experse of any prayings break. the average of any previous break.

Altogether there were four auctioneers selling, they did not finish this afternoon the first warehouse. As soon as this is finished the buyers will go over to the other house, and it will take nearly all

day tomorrow to get through selling the tobacco on the floor now.

When the sale began this morning our streets were almost deserted, all including a large number of ladies, went down to the warehouse to witness the sales. The indications now are that Darlington will indications now are that Darlington will sell the largest number of pounds sold in South Carolina. The farmers from the other counties are highly pleased with the sales of their tobacco and with the kind-

ness they received from the citizens of

TIMMONSVILLE, Aug. 21.-Eight buyers on the field, several more expected on Monday, 100,000 pounds of tobacco already on hand, eighty graders and labor-ers hard at work and the opening break yet a week off. This brief statement will cause any who once doubted the success of the Timmonsvile Tobacco Warehouse o appreciate the fact that the market is

Rival towns with ware houses once gave to projectors of this enterprise the advice: "Don't try it unless you are prepared to lose the money invested. Buyers will not come to small towns. But without listening to croakers, a first class warehouse was built, large and commodious leaf houses erected, and the story is told by the brief statement made in the beginning. Close observers are prophesying that in the amount of tobac-co sold, Timmonsville is going to be in the front rank of the procession. There is no doubt that the tobacco crop will soon supercede cotton as a money crop. Farmers that this year held off from to-bacco, believing that financial ruin would at once overtake them if they turned

enterprise and push the promised great success of the warehouse is due, are bus-

ily preparing for their opening sale on Tuesday, the 27th inst.

Col. G. E. Webb, the genial and well-known auctioneer, wears a perpetual smile, and tobacco talk has driven out all other topics of, conversation in our town. To speak of cotton is to be put down as a moss back. Timmonsville is destined to be one of the leading tobacco markets in the State. Mark the predict-

One of the Furies.

KNONVILLE, TENN., Aug. 24.—News of a sensational murder comes from Chad-well, Lee County, W. Va. One of Andy Sutton's hogs got into a corn patch belonging to Andy Bowling. Bowling dogged it out and when on the outside of ling's teeth, knocking him down and senseless. Mrs. Sutton then climbed

during the war and sympathized with the union side. She is proud of her brother, but believes that he was a confederate because he lived in the South.

Col. Thomas W. Holloway, the genial sands all over the State, and they may pared to give them a hearty welcome and will do her part towards furnishing them

equal in all respects in point of the num-ber and excellence of exhibits as any preceding fairs, though more simly attended, because of excessive railroad rates. All of these drawbacks having been satisfactorily adjusted, there is no reason why this fair should not be as successful as any heretofore held. Attend the fair, and encourage us with your presence and assistance in this great en-Yours truly, Thos. J. Moore, Presid nt.

THOS. W. HOLLOWAY, Secretary. Another \$100,000 to the Black Diamond Railroad.

JELLICO, TENN., August 24 .- The skirmish of the railroad battle to be fought at Jacksboro next Wednesday occurred Jacksboro next Wednesday occurred here to-night in a citizens meeting called to ascertain the wishes of the people in regard to the action of the magistrates of this district on the proposition of the Boone and La Follette railway companies now on file in the County Judge's office. Both Boone and La Follette were here and explained their propositions. Boone argued that it was going to be

pointed to draft resolutions expressing the sentiment of the meeting.

The following was reported and on motion was adopted with only one dissenting vote.

Be it resolved by the citizens of Jellico in mass meeting, First—That they favor the construction

of a competing railroad to Kuoxville and the sea. Second-That they respectfully request their representatives in the County Court to vote for the proposition of Col. Albert E. Boone, president of the Ohio River, Knoxville and Tidewater Railway Com-

Major Tramell was president and Editor Douglass secretary of the meeting. Boone was given a royal and enthusi-astic reception and his victory here will tation in stating to the farmers of the Atlantic States that a trip of twenty days in Texas through the cotton belt, accompanied by two cotton experts, leads me to believe that Texas cannot possibly to the saw Special to the Knarville

All Not Serene.

Columbia State, August 22.

Senator Tillman was in the city yesterday. As usual he had something interesting to say. This time it was concern-ing Clemson College. He does not seem on agree thoroughly with Mr. R. W. Simpson that everything is moving along serenely at that young and promising State institution. In fact Senator Tillman indicated that there would have to be some important charges before he would feel assured that the College would be prepared to do successfully the work laid out for it.

And from what he said it is very evi-

dent that the board of trustees have been cognizant of this for some time, for an investigating committee has been ap-pointed to seek out the cause of the trou-ble, and the Senator stated that the committee would have met before this but that other engagements prevented his attending the meeting. The committee will meet within the next ten days or two weeks probably. Senator Tillman said very much that

would prove mighty interesting reading, but the Senator forbid its publication. What Senator Tillman did say for publication, however, was as follows: "There is surely trouble and lack of harmony and unity in the faculty at Clemson. A committee has been appointed to investigate the entire matter, and what I want is any thread that will lead me, and the committee of which I am a member, to any evidence that will expose the trouble and the cause of the lack of unity. A house divided against itself cannot stand, but you must rememthat there are many excuses to be made for the shortcomings of the board and faculty, because of the magnitude of the work, the newness of the college to every member of the faculty and the diversity

of the work done. "The last meeting of the board at Clemson was, I can say, a stormy one. There is always wrangling at the meetings, the members are a hard-headed set of men and always express their views. The way to aid the school, however, is to let its friends criticise it and not its declared enemies, or, if its enemies then let them produce evidence to substantiate the indictment and give the names of the parties making the charges of whatever nature, so that the committee can sumopen up the whole thing.
"It is quite clear that either Mr. Craig-

head should not be president or some of the professors should not hold their posi-Turning to Mr. McMaster, who had written the article to the State on the College, he said: "You may prove to be a benefactor in that you have broken the ice in a thin place, so that now we will be enabled to find out where the translet lies."

Governor Evans, who was present the trouble rested with the trustees: that they did not give President Craighead enough authority or would not adopt suggestions made by Senator Tillman for fear of being accused of being led by him.

Cannon from the Old Star Fort.

GREENWOOD, S. C., Aug. 5, 1895. Mrs. N. A. Martin, who lives a few miles from here, has kindly furnished two cannon to be sent to the Atlanta Exthe time of the report paid \$1.16 out of every \$16 that was paid on property of all classes.

Suppose it is figured out how much would go into the pot of each in case this provision were carried out, and the school fund of last year were divided on this basis. The aggregate fund for school purposes, outside of the colleges, last year was \$503,584.02, of which \$117,078.14 position. They have been in the possession of her family for almost one hun-

The arms on which they were mounted have been broken off. If Gen. Green and Lord Rawdon could return from the spirit land and see the mighty cannot used on the Columbia and other hand somely equipped war vessels they would blush to own these diminutive instruments of death. These guns will be or exhibition at J. C. Durst & Co's store for about ten days and then they will be shipped to Atlanta. Mr. Durst is very anxious that Abbeville County be repre sented at the Exposition.—Cor. Abbevill

- It is seldom that a man dies in coffin, but that is exactly what old Barney Frickers of Alliance, O., did when he finally gave up the ghost in the fall of 1890. For more than 20 years "Old Barney" had been haunted with the idea that he was on the verge of the grave. Every the corn lot, he was assaulted by Sutton's evening he declared that he would never the corn lot, he was assaulted by Sutton's wife, who began throwing stones at him.

The first stone knocked out three of Bowling's teeth knocking him down and never allowed himself to go to sleep without being carefully prepared for death and burial. Every night he robed himover the fence between her place and the ground outside the corn lot and struck Bowling a second blow on the temple, laid down in his coffin and passed the night firmly believing and probably hoping that for him the day would never dawn again. Finally death came, but, grim and sly as he was, he did not find Stonewall Jackson's sister, Mrs. Laura Jackson Arnold, lives at Columbus, O. She married and resided in Pennsylvania during the war and sympathized with

movement begun here yesterday by representatives from Anderson, Spartanburg, Laurens and Greenville to prevent taking it out fighting each other. the purchase of the Port Royal & Western

Carolina system by the Southern railway through the Georgia Central. The present managers of the Southern have given much reason to believe that they are earnest in their purpose to give active help in building and developing to do the very best and most thorough work. Rates of tuition very low. God the South. The authorities of that system have already done much good work in that direction and should be made to

reduction of cotton acreage and distribution of sales. He said that the acreage in will do be part towards furnishing them allowed to make to will do be part towards furnishing them allowed for the present cotton crop will and from his visit he comes to the conclusion, aided by the figures be has collected, that the present cotton crop will not run over 7,250,000 bales and regards this as an outside figure. He thinks that on this basis cotton ought this year to bring about 8 cents per pound. Mr. Lane was asked to give for publication the purposes and scope of his work, and he spoke interestingly as follows:

"My purpose is to look over the cotton crop and advise with the farmers. The sot important thing to be done, if it can be accomplished, is for farmers to prement to depress values of the staple. If they cannot perfect organization then they should act independently and individually. The purpose of the bear element now is to terrorize farmers into trushing their crop into the market in the early months. This they are undertaking the country, fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by that arch enemy of the Southern country fabricated by the farmer country fabricated by the farmer country fabricated by the farmer companies and country fabricat at least be secured in the possession of the advantages they paid for an expected. All the powers of the courts should be invoked and all the resources of the law

> tem from going to the Southern. If the courts can not protect the interests of the public the legislature should be asked to It is a matter of business. There is no occasion for ill feeling or malice on either side. Monopolies are dangerous, especially to communities which are working side. Monopolies are dangerous, espe-cially to communities which are working to build themselves up and struggling against sharp competition. The fight we hope to see will not be against the Southern railway company especially but against any and every effort to deprive Spartanburg, Greenville, Laurens and Abbeville counties of fair railroad competition .- Greenville News.

should be exhausted to prevent this sys

A New Invention.

There is to be a great revolution in rail-road building and all kinds of grading i those who have examined the machines recently patented by Mr. T. B. Redmond, the well known railroad contractor, are badly mistaken.

The Constitution approached Mr. Redmond yesterday and inquired about it, but he would not talk about his machine, because, he said, while his patents have been granted, he was perfecting other uses for his machine on other kinds of grading besides railroad grading. "I have spent much money," he said, "feeding and caring for mules while not at work. Yes, I have spent as much as \$0,000 without striking a lick of work and this put me to studying, and I have developed a plan that I think is perfect. I will give it to the Constitution as soon

as I am ready, but I have a partner, and we have promised each other not to give the matter to the public until our plans have all been perfected."

From parties who have seen models of the machine—and they are practical railroad men—are gathered the following facts. The machine is operated by electricity or steam a double trailing asy tricity or steam, a double trolley line say tricity of steam, a double troney line say ten miles in length, more or less, if the line to be graded permits it. These work the machines in gangs with plows and scrapes. One trolley line carries the machines to the dump and the other brings them back, and so on. It carries the dirt to the fill for the full length required, even two thousand yards, as cheaply as it will one hundred yards. The actual cost of removing dirt by this machine will be reduced to 2 cents per square yard. The machines are simple and work automatically, and not only save the loss of money, but will be a great labor saving machine. It will reduce the loss of money, but will be a great labor saving machine. It will reduce the loss of money but will be a great labor saving machine. It will reduce the loss of money, but will be a great labor saving machine. It will reduce the loss of money, but will be a great labor saving machine. It will reduce the loss of money, but will be a great labor saving machine. It will reduce the loss of money, but will be a great labor saving machine. It will reduce the loss of money, but will be a great labor saving machine. It will reduce the loss of money, but will be a great labor saving machine will be a great labor saving machine will be reduced to 2 cents per square year.

Formerly Occupied by Kay & Baker, after Sept. 1st. the time required in railroad construc-tion except where the grading is to be done through rock .- Atlanta Constitu-

- A passenger who came in from Flor-ence last night brought the intelligence of a sad event which occurred in East Florence at noon yesterday. A heavy bolt of lightning ran down the chimney of the residence of Mr. Eagerton, a well known carpenter of Florence, and passing out, struck and instantly killed his attractive and lovable daughter, Miss Lily Eagerton, a young lady of about seventeen summers. Two small children who were near the young lady on the rear piazza of the house, were stunned. The young lady's back was badly burned by the electric current. Life was extinct in a few moments.—The State, Aug. 27.

BUT, of course, we can't wear all the new Sicc's we have just received, because it is too large. Neither can we wear all the large Stock of SHOES just put on our shelves; and what we are now interested in is to get some thousand or more people to help us to wear them out to make room for others just like them. It will be hard help us to wear them out to make room for others just like them. It will be hard work, but it will pay you to help us. We have the neatest line of SHOES and PANTS we ever carried, and can surprise you when it comes to prices. Give us a call and just look at our Stock, though you don't want to buy. — In regard to the sensational reports sent out from Atlanta to the effect that boarding house keepers have increased their rates, Mr. Alex. W. Smith, chief of the depar ment of public comfort, makes the official statement that rates at the regular hotels will be from \$1 to \$3 per day European plan, and from \$2 to \$5 per day, American plan. In the lodging and boarding houses, rates will be from 50 cents to \$1.50 for lodging and from \$1 to \$2.50 a day for lodging and board. Weekly and monthly engagements can be made at the usual reduction.

— Oregon people are raising a strong protest against the continuance of the horse canning industry in that State. They claim that it will injure the reputation of the State and of other canning industries. They don't want people to say or think "dead horse" when they see the brand "Oregon" on canned meats. The horse cannery has started business, but little is known of its business yet.

The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail." Signed F. W. Stevens, State Com. Why not give this great medicine a trial, as it is guaranteed and trial bottles are free at Hill Bros. Drug Store. Regular size 50c. and \$1.00.

It May Do as Much for You. Mr. Fred Miller, of Irving, Ill., writes that he had a Severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. for large bottle.

Miss Lenora C. Hubbard WILL receive twenty-five pupils at \$1 25 per month, beginning Monday, Sept. 9th, and continue until the Graded School Building is completed. This will be an excellent opportunity for pupils to make up deficiency in any one study, so as to enter higher grades in the Graded School.

A TALK ON BUSINESS.

WE want to say a few words this week on our way of doing business. A great many know something about it already, but for the sake of those that don't know we make this explanation :

Our first and fundamental rule is to buy our Goods from the proper source, paying SPOT CASH for everything, thereby saving our customers from seven to ten per cent. We will take as much trouble to show our Goods if you are only looking

around as if you had come especially to buy from us. We take back all Goods not entirely satisfactory.

We do not ask you to trade with us unless you are convinced that it is to your interest to do so.

We do everything in our power to make our customers feel that we appreciate their trade. Yours very truly,

D. C. BROWN & BRO.

ANDERSON, S. C.

An Exclusive Shoe House is the only place to Buy your SHOES. There you will find

QUALITY QUANTITY and FIT. Also, BARGAINS in all kinds of Goods.

WE carry Fine, Medium and Cheap Goods in great variety. We have at present a great Bargain to offer you for Cash, namely :

200 to 300 Pairs Women's Oxford's at 45c., 65c. and 90c. Goods that cannot be bought for that price at the Factory.

100 Pairs Men's and Boys' Tennis Oxfords at 35c. ! Which are sold at all Stores for 50c. We want to make room for our Fall

Everything in Low Cut Goods reduced to make room for our Winter Stock, which will embrace the largest and finest line of Goods, in all varieties, in Anderson, which will be sold lower, quality considered, than in any
